Plan Preparer: _____ Affiliation: _____

Address: _____ City: _____ State: _____ Zip: _____

Phone: _____ E-mail: _____

Project Site Owner: _____ Company Name (if applicable): _____

Address: _____ City: _____ State: _____ Zip: _____

Phone: _____ E-mail: _____

Based on the information provided above, please CHECK the category of activity that best describes this project:

- Light Land Disturbing Activities: are activities which disturb less than 2000 SF of land or 40 CY of soil, sand, gravel, stone, or similar material. Or the Emergency repair of utilities or public utility projects that require any bond.
- Moderate Land Disturbing Activities: are activities which disturb more than 2000 SF but less than 1 Acre of land. Or more than 40CY but less than 2000 CY of soil, sand, gravel, stone, or similar material. Erosion Control Plan required for City Improvement Location Permit (ILP).
- Significant Land Disturbing Activities: are activities which disturb 1 Acre or more of land or 2000 CY or more of soil, sand, gravel, stone, or similar material. In order to obtain Improvement Location Permit (ILP), this requires an Erosion Control bond be posted to the City of Mishawaka, and filing a Notice of Intent (NOI) with IDEM in accordance with the current Construction Stormwater General Permit (INRA00000), previously administered through 327 IAC 15-5 or Rule 5.

I understand that in order to comply with Erosion Control Ordinance #5085, I agree to install erosion control measures and to perpetually maintain the site while under construction, after any rain event, and until site is fully stabilized after construction is complete and released by the City. If current measures are not effective, I shall be proactive and consult with the City of Mishawaka MS4 Manager.
